Subject: Huge huge thank you

Dear Peter,

I was completely stunned by the magnificent bouquet of flowers which arrived from you on my last day and I apologise for not responding earlier. It was such a very, very generous and lovely gesture and certainly the most beautiful that I have ever received - I was the envy of many ladies in school that day! I intended to write to you but time is going on and email is faster. Sleep has been my main preoccupation since finishing school!

I did want to add my own huge thanks to you personally. You have been very great fun to work with offering patient advice at all times and a straight face, together with anecdotes on the fun and pitfalls of long distance walking. We have gone through many years of change and I am very, very grateful for the support and above all friendship that you and everyone at Kew have given me through the years. I have certainly very much enjoyed working with you all and catching up with you personally through out that time.

I will definitely miss you all and not knowing what comes next for you all. So please pass on all my thanks to everyone at Kew - Richard in particular whose own "story" I have much enjoyed following I will rely on Sheila at [REDACTED] to keep me up to date on all the "gossip" from Kew.

So as I head off to walk the hills, mountains, rivers and valleys of our green and pleasant land I wish you all the very best for the future whatever that may hold for you and your families.

Again many, many thanks.

Best regards,

Caroline W [REDACTED]
