

A guide to replacing the Transfer Belt

Toshiba e-Studio 407cs
Toshiba e-Studio 357cs
Toshiba e-Studio 287cs

This guide was produce by

1 - Lift the "lid"

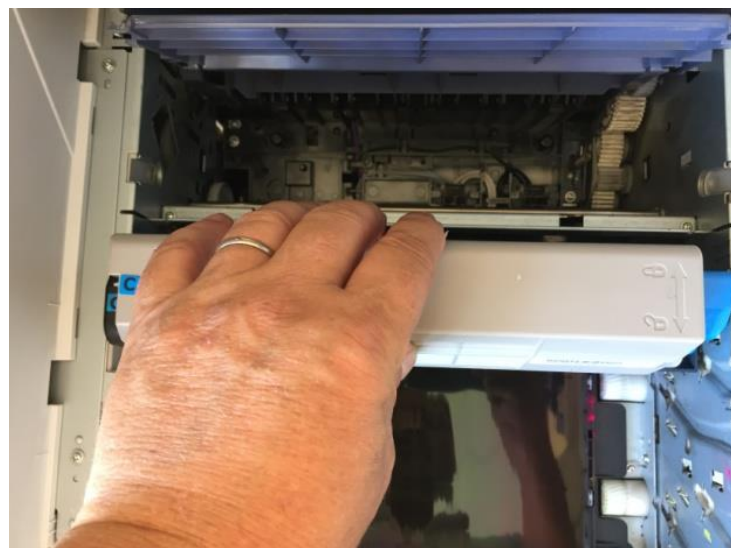

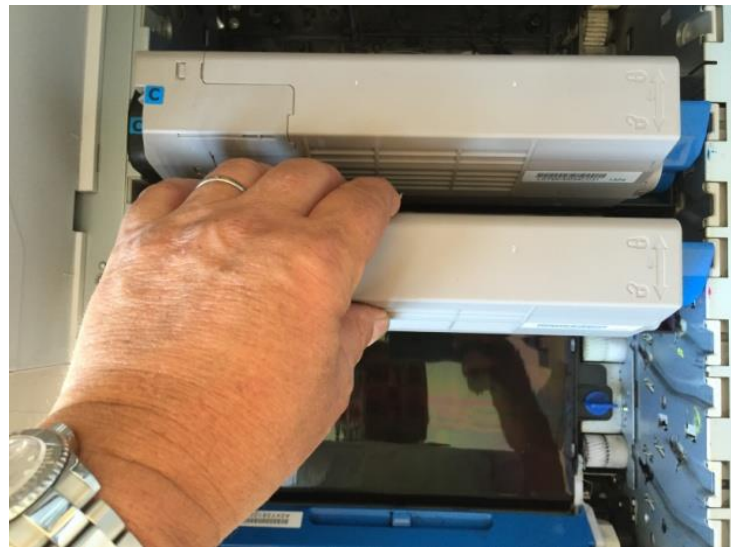

2 – Press this button (to gain access)

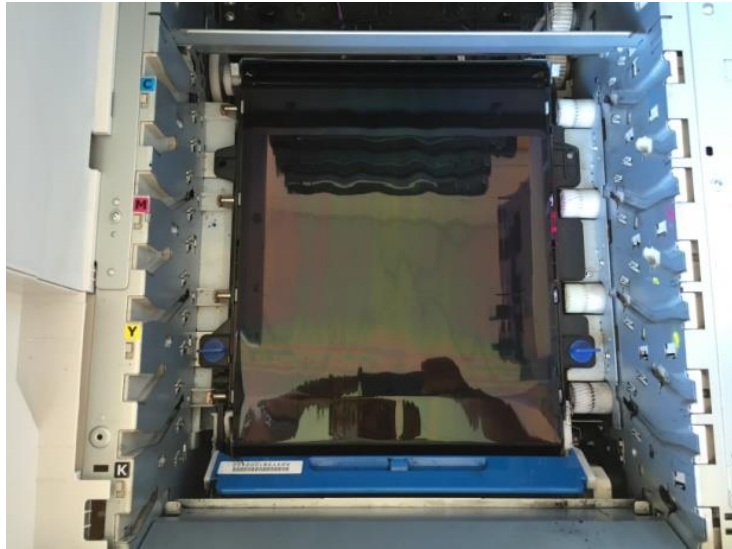

When cover is open it will look like this (please note the black toner is missing in this picture)

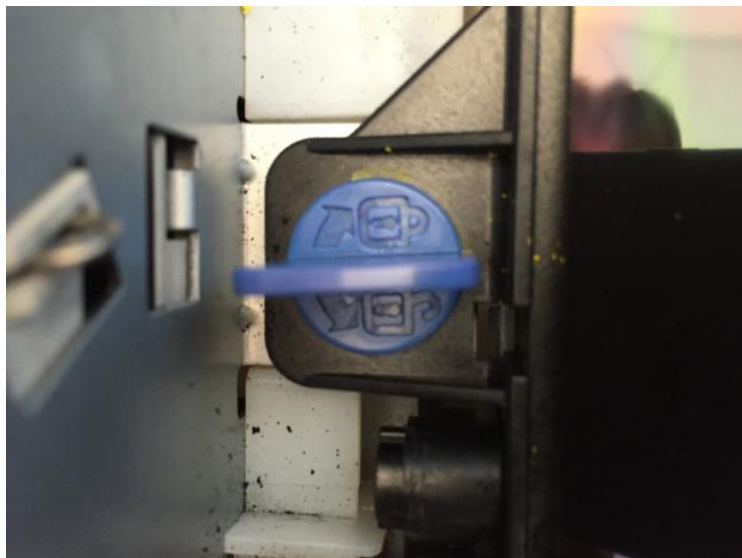

3 - Now remove each toner by gently pulling upwards

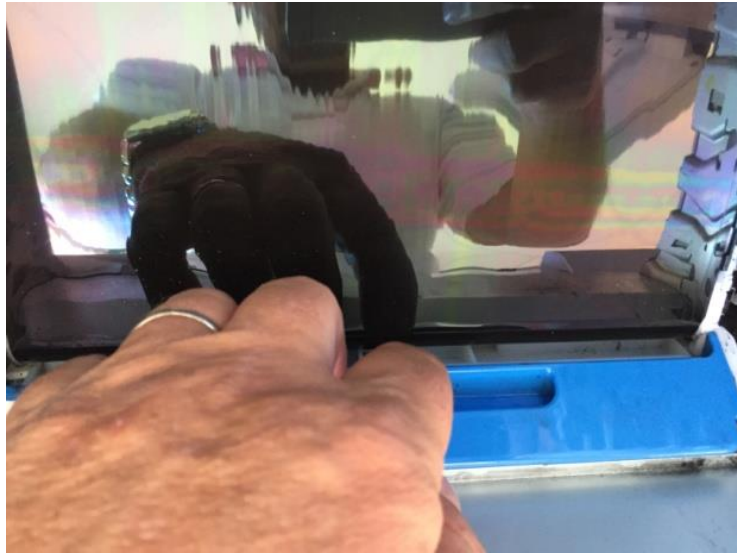

Now you can see the transfer belt

4 - Unlock the transfer belt by rotating the two blue thumb screws, one on left & one on the right.

5 - Remove transfer belt using blue handle at front, gently pull upwards.

Once the belt is removed it will look like this

Now install the transfer belt by reversing this process

Now you've started to become a printer engineer!!!!
